## // Parent's Guide to Government Funded Childcare //

# Introduction

If you are looking for childcare, you probably have a good idea of what you want -- a place that is safe, happy, and loving, where children can learn and have fun. At the same time, childcare must also meet your needs.

Childcare should be convenient, affordable, and offer care when you need it. Finding childcare that has the quality and convenience you want --at a reasonable cost--can be a real challenge. It is rare to find the perfect situation but it is possible to find a very good facility that will meet your needs.

This guide is a short introduction to the childcare available, and eligibility of children and families for Government Funded Childcare schemes.

## Finding a service

Finding the right service for you & your family is not just about affordability. You should also look for a quality experience for your child. Good quality childcare has many long term benefits for children and their families and a quality, play-based curriculum will promote children's development in all areas.

### Get Organised

- Do your homework and ask friends & family for recommendations.
- Find out about the funding schemes available and see what childcare services are signed up to.
- If you're on a training scheme or in receipt of a social welfare payment this could reduce your childcare costs – get informed about what schemes are out there and how they might affect you.
- Contact your County Childcare Committee (Fingal County Childcare Committee's website: [www.fingalcountychildcare.ie](http://www.fingalcountychildcare.ie) contains an up to date list of childcare providers) or the HSE for names and contact details of childcare facilities in your area, a list of childminders is also available through the FCCC office, along with other helpful information.

### You should expect:

- A warm greeting and a brief tour.
- Short introductions to both adults and children.
- An invitation to stay a while to see the daily routine and children playing.

Most services will have information to hand, possibly in the form of a Parent's Handbook. This should contain comprehensive and accurate information detailing opening hours, fees, facilities offered, policies and procedures etc.

### Know your Options

Siolta has 12 principles one of which is recognition that parents are the primary educators of the child and have a major role in promoting her/his well-being, learning and development. For more information on the principles of Siolta and how they can be applied in any childcare setting check out [www.siolta.ie](http://www.siolta.ie)

These are:

- Well-being
- Identity and Belonging
- Communicating
- Exploring and Thinking

The themes describe what children learn—the dispositions, attitudes and values, skills, knowledge, and understanding. For more information check out <http://www.ncca.biz/Aistear/>
